HOW THE CONNECT COMMUNITY CAN COME TO YOUR RESCUE

Property problems rarely arrive at a convenient time. A fence may come down during strong winds, rubbish can build up unexpectedly, a property may require urgent cleaning, or a household may face a situation they are unsure how to manage. At times like these, knowing where to begin can be just as important as finding the service itself.

Williams Connect Plus gives connected members one place to start.

More Than a Service Network

The wider Connect community can bring together customers, local businesses, service providers, charitable groups, community organisations and strategic partners. Each has a different role to play, but together they create a network that can respond in practical and meaningful ways.

Sometimes Williams may be able to provide the required property service directly. In other situations, a local business, charitable organisation or Connect partner may be better placed to assist.

Support could take many forms. It might involve contributing time, providing materials, offering a service, making an introduction or helping someone find the right organisation to contact.

It could also mean offering a member benefit that makes an essential service or everyday purchase more accessible.

Turning Connections Into Action

The purpose of Williams Connect Plus is bigger than simply arranging property services.

It is about building connections before they are urgently needed. When a member reaches out, the network can help identify the most appropriate next step and explore what support may be available.

Not every situation will require the same response. A property manager dealing with an urgent maintenance issue may need a reliable service provider. A household experiencing hardship may benefit from a connection with a community organisation. A charitable group may need practical assistance, donated materials or support from a local business.

The strength of the network comes from bringing these different capabilities together.

A Community Willing to Help

A connected community works best when its members choose to participate.

Businesses can contribute their services or resources. Community organisations can share knowledge and reach households that need assistance. Customers can recommend trusted providers, support participating businesses and help strengthen the network through their involvement.

One connection may not solve every problem, but it can create a starting point.

When people, businesses and organisations are willing to help, connection can become practical action. Williams Connect Plus helps bring that community together so the right support can be found when it matters most.

“Because sometimes, the most important service a network can provide is knowing where to turn.”

START HERE. ACCESS MORE.

Your First Service Opens the Door to Connect Plus Benefits

Williams Connect Plus was created to make property services easier to access while giving members more value from the services they already need.

Joining is free. Once registered, members can connect their home, rental property, investment property or business premises to one simple platform. This makes it easier to request trusted property support, manage future service needs and stay connected with the growing Williams network.

But registering is only the beginning.

One completed service opens the door to rewards and partner benefits. ”

Connect today. Make your first service. Unlock more ”

Complete Your First Service

To activate the full benefits of Connect Plus, members need to complete their first eligible property service booking through the platform.

This could include garden maintenance, cleaning, rubbish removal, fencing, general repairs or another qualifying service available through the Williams network.

Once the booking has been completed, the member's rewards and partner benefits become available, including the 250 welcome bonus points.

Earn Connect Points

Members earn Connect Points when they complete eligible property service bookings. These points can be accumulated and used towards selected Williams services and other approved benefits, subject to the programme terms. This means regular property care can create value that continues beyond the original booking.

Whether you are arranging a one-off service or managing ongoing property needs, each eligible booking can bring you closer to your next reward.

Access Partner Benefits

Activated members can also enjoy selected offers from participating Connect Plus partners.

The growing partner network includes businesses across technology, dining, wellbeing, eye care, gifting and family entertainment. These benefits are designed to give members more reasons to use Connect Plus, even when they are not arranging a property service.

With nationwide partners such as Noel Leeming and a growing range of local businesses, Connect Plus is bringing together property support and everyday benefits through one membership.

One Membership. More Ways to Benefit.

Getting started is simple:

1. Join Williams Connect Plus for free.
2. Connect your property.
3. Complete your first eligible service booking.
4. Receive your welcome bonus and begin earning Connect Points.
5. Access selected benefits from participating partners.

Williams Connect Plus is more than a place to request property services. It is a growing nationwide network designed to help members look after their properties, earn rewards and access more value from trusted businesses.

This Month's Partners

More Benefits Through One Growing Network

Williams Connect Plus is about more than arranging property services. It also connects activated members with selected benefits from participating businesses across technology, dining, wellbeing, gifting and entertainment.

Our partner network brings together a recognised nationwide retailer and a growing selection of Auckland businesses. Each partner offers something different, giving members more ways to benefit beyond their property needs.

From appliances and home entertainment to computers, mobile devices and everyday technology, Noel Leeming is a familiar name across New Zealand.

Its nationwide presence helps Connect Plus extend member value across the country, with activated members able to access selected partner pricing and eligible offers.

GameOn brings games, activities and shared entertainment together for families, friends and groups. With Father's Day and the school holidays approaching, it offers members an opportunity to enjoy more time together while accessing selected Connect Plus benefits.

Based in Rosedale, Auckland, Skin Journey with Suzy provides personalised skincare and beauty treatments designed around individual needs.

Through Connect Plus, members can discover selected benefits while taking time to focus on their personal care and wellbeing.

Join. Book. Unlock more through Williams Connect Plus. ”

Located in Auckland Central, Escapade offers interactive escape room experiences built around teamwork, creativity and problem solving.

It is a different way for families, friends and colleagues to connect, making it a valuable addition to the growing range of Connect Plus experiences.

Set within the beautiful Simunovich Olive Estate in Bombay, Bracu offers a distinctive dining experience away from the pace of central Auckland.

Whether celebrating a special occasion, planning a memorable meal or giving someone an experience to enjoy, members can access selected benefits through this Connect Plus partnership.

Located in Takapuna, Crawshaw Opticians & Optometrists supports customers with professional eye care, eye examinations and eyewear solutions. This partnership brings an important health and wellbeing benefit into the Connect Plus network, helping members look after more than their properties.

Based in Avondale, Best Blooms Florist creates flowers, gift baskets and thoughtful arrangements for celebrations, milestones and everyday moments. Its range gives Connect Plus members another way to recognise someone special or make an occasion more memorable.

More Partners. More Possibilities.

Partner benefits become available after members complete their first eligible property service booking. Offers may vary between participating businesses and are subject to each partner's applicable terms.

As Williams Connect Plus continues to grow, we look forward to welcoming more partners and bringing new member benefits to communities across New Zealand.

CELEBRATE DAD, YOUR WAY

Gifts, Experiences and Time Together This Father's Day

Father's Day is an opportunity to celebrate the dads, grandfathers, father figures and mentors who make a difference in our lives. The best gift does not always need to be something expensive or elaborate. It could be a thoughtful surprise, a practical upgrade, a memorable meal or simply an experience enjoyed together.

With Father's Day falling on Sunday, 6 September, Connect Plus members can explore a range of ideas through our growing network of participating partners.

For the Dad Who Loves Technology

For dads interested in the latest technology, home appliances or entertainment, Noel Leeming offers plenty of practical gift inspiration.

From headphones and smart devices to televisions, kitchen appliances and everyday technology, there are options to suit different interests and budgets. Activated Connect Plus members can also access eligible partner pricing on selected products.

For the Dad Who Enjoys Great Food

A memorable meal can be one of the best ways to spend time together.

Located within the Simunovich Olive Estate in Bombay, Bracu provides a distinctive setting for a Father's Day dining experience. A restaurant booking or gift voucher can turn the occasion into something the family can enjoy and remember.

For the Dad Who Enjoys a Challenge

Some dads would prefer an experience over a traditional gift.

GameOn Arcade offers an energetic day out filled with games and family entertainment. Escapade Auckland provides an interactive escape room experience where families and friends can work together, solve clues and share a few laughs along the way.

Both provide an opportunity to step away from the usual routine and spend meaningful time together.

For a Thoughtful Surprise

Best Blooms Florist offers more than traditional flower arrangements. Gift baskets, plants and carefully selected gifts can provide a simple but personal way to show appreciation.

A thoughtful delivery can be especially meaningful when you cannot celebrate together in person.

More Ways to Celebrate

Williams Connect Plus brings together property support and selected lifestyle benefits through one growing membership network.

After completing their first eligible property service booking, members can unlock access to participating partner benefits and begin enjoying more value across everyday services, shopping and local experiences.

Offers and eligibility may vary between participating partners and are subject to the applicable terms.

This Father's Day, choose something that reflects the person you are celebrating. Whether it is useful, thoughtful or simply fun, the time and care behind it are what make it meaningful.

Join Williams Connect Plus, complete your first service and unlock more ways to celebrate. ”

GROWING ACROSS NEW ZEALAND

Local Connections. Nationwide Possibilities.

Father's Day is an opportunity to celebrate the dads, grandfathers, father figures and mentors who make a difference in our lives. The best gift does not always need to be something expensive or elaborate. It could be a thoughtful surprise, a practical upgrade, a memorable meal or simply an experience enjoyed together.

With Father's Day falling on Sunday, 6 September, Connect Plus members can explore a range of ideas through our growing network of participating partners.

Property Support Through One Network

Managing a property often means contacting different businesses for cleaning, gardening, rubbish removal, repairs, fencing and other maintenance needs.

Williams Connect Plus brings these services together through one connected platform. This helps members spend less time searching for individual providers and makes it easier to arrange support when it is needed.

The network is designed to support different types of members, including homeowners, tenants, landlords, property managers and businesses.

Benefits Beyond the Property

Connect Plus membership also extends beyond property care.

After completing their first eligible property service booking, members can access selected benefits from participating partners and begin earning Connect Points on qualifying services.

The addition of Noel Leeming as a nationwide partner gives members access to eligible partner pricing across selected technology, appliances and home essentials throughout New Zealand. Our Auckland partners also bring local dining, wellbeing, gifting and entertainment experiences into the network. These include Bracu, Best Blooms Florist, Skin Journey with Suzy, Crawshaw Opticians & Optometrists, GameOn Arcade and Escapade Auckland.

Together, these partnerships demonstrate what Connect Plus is becoming: a network that supports both property needs and everyday life.

Building Stronger Local Partnerships

As Connect Plus expands, we aim to welcome more businesses from different industries and regions. Every new partner creates another opportunity to support local businesses, introduce members to trusted services and make the programme more useful to communities throughout the country.

The goal is not simply to build a list of discounts. It is to create meaningful connections between members and businesses that can provide genuine value.

Williams Connect Plus is continuing to grow, one property, one partner and one community at a time.

Join Williams Connect Plus and become part of a growing nationwide network built around property, rewards and connection. ”

Connect Plus Welcomes

We're excited to showcase Noel Leeming in this edition of the Williams Connect Plus Magazine and highlight the opportunities now available to our growing customer network across New Zealand.

Through the support of Joey Zhou, Commercial Business Manager at Noel Leeming, Connect Plus customers can access commercial purchasing opportunities and available trade pricing on eligible products. This gives our customers another way to potentially save when purchasing technology, appliances, whiteware and other products for their homes, businesses and property projects.

For many households, larger purchases such as fridges, washing machines, dryers, televisions, computers and other technology can represent a significant investment. Having access to commercial purchasing opportunities through Noel Leeming gives Connect Plus customers another avenue to explore when they are looking for value on these types of purchases.

This is another example of how Williams Connect Plus is building a growing network of recognised national brands and businesses that can provide genuine value and opportunities to our customers.

We would like to extend a special thank you to Joey Zhou, Commercial Business Manager, and the Noel Leeming team for their support and for helping us create additional opportunities for Connect Plus customers.

As Connect Plus continues to grow nationally, we look forward to bringing our customers more value, choice and access to leading brands through the network.

A photograph of Joey Zhou, a woman with dark hair and glasses, wearing a dark patterned jacket over a dark shirt and a blue lanyard. She is standing in front of a trade show booth with a wooden ceiling and industrial lighting in the background. A yellow arrow points from her name tag to the text block below.
